A grayscale photograph of a waterfront town square. In the foreground, a paved plaza features several wooden picnic tables and benches. A small boat is docked at a pier on the left. In the background, a large, multi-story building with many windows is visible, with the sign 'THE RICHMOND INN' above its entrance. The scene is set along a body of water with other buildings and trees in the distance.

Local Community & Tidy Towns Solutions

IPL group provides a competitive source for high-quality road products and street furniture. Our RETENTION SYSTEM foundation sockets and Rivers range of street furniture are made in Ireland and are widely used throughout the country in the design, maintenance and management of public realm infrastructure from village streetscapes to national roads.

In Ireland, IPL group has long-established relationships with local authorities, Tidy Towns groups and neighbourhood communities. We understand that the public spaces and built environment in every city and town define its character and that the careful, good design and conservation of that character provides long-term socio-economic, cultural and environmental benefits for residents, businesses and visitors. We aim to build on the shared vision of communities and assist local groups across the country with solutions that encourage and protect the historical and cultural uniqueness of each location and the conservation of natural amenities.

To ensure your continued local environment success and sustainable infrastructure design, we make it our job to understand your local community aims, critical issues and future development plans in order to identify and implement integrated solutions of real value.

IPL group gets the best road products and street furniture working for you.

CLASSIC STYLE BOLLARDS

Distinctive range of Irish-made bollards for coordinated streetscape design. Quality material construction and available in a variety of styles and finishes.

MODERN DESIGN BOLLARDS

Contemporary high-grade stainless-steel bollards with brushed finish.

POLYURETHANE HERITAGE BOLLARDS

Eco-friendly polyurethane and steel-core design bollards. Made from recycled material with rustproof finish and available in popular heritage styles.

PEDESTRIAN GUARD RAILINGS

Suitable for town or rural landscapes with a choice of styles and matching design features. Available either ground-fixed or removable with RS socket.

FLEXIBLE BOLLARDS

Strong, reboundable polymer bollards. Safe impact design that offers strength and resistance but will bend under applied force and return to original shape.

SIGNS, PLAQUES & DISPLAY PANELS

Heritage signage for information and communication of directions, street names, tourist information and local sites. Quality castings and custom designed to suit neighbourhood and local identity.

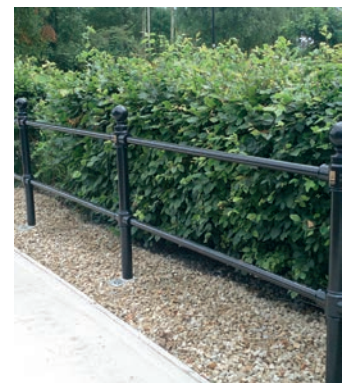

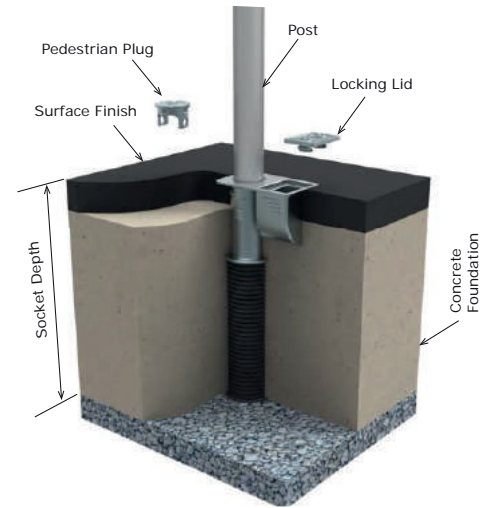

IRISH MADE STREET FURNITURE
Bollards, railings, signage & bespoke projects

The Irish-made, stylish and durable RIVERS street furniture range is part of IPL group's portfolio of innovative products developed to international standards and specifications. This series of bollards, railings, signage and special commissions is named after Irish rivers and is suitable for both town and rural landscapes, for new developments and upgrades of existing streetscapes. The choice of coordinated classical and modern styles offers design, identity and security for every situation. All RIVERS street furniture can be either ground-fixed or removable with IPL group's RETENTION SYSTEM foundation sockets.

RETENTION SYSTEM™

Installing street furniture in IPL group's patented RETENTION SYSTEM sockets addresses the installation demands, maintenance needs and lifecycle of the post. This intelligent post foundation system delivers cost, safety and environmental benefits. All groundworks can be completed and street furniture kept safely off-site until installation is required, ensuring less damage to product finishes and paintwork. Items such as pedestrian guard railings and bollards used for safety, parking control and pedestrian areas are typically subject to vehicle impact and require regular maintenance. If damaged, these items can be safely and easily replaced without any further excavation, and at a fraction of traditional costs, once installed in IPL group's high-quality RS sockets.

BENCHES & SEATING AREAS

Attractive ranges of durable and eco-friendly picnic benches and seating options, including hardwood, pine wood, recycled plastic, aluminium and corten steel designs.

NATURE & RUSTIC INTEGRATION

Items suitable for nature trails and parks, including rustic style bins, bollards and benches for public realm infrastructure in scenic areas.

DRINKING FOUNTAINS

A select range of contemporary and classical styled drinking fountains to suit all areas for the provision of drinking water at local sites.

LITTER BINS

Wide range of contemporary, traditional and ecological inspired bins. Heavy duty construction, easy maintenance and suitable for all public areas.

PLANTERS & TREE PROTECTION

A choice of materials, sizes and finishes available for planters used to introduce nature in areas where ground planting is not an option. Stylish range of tree guards and grilles also available.

IPL group

quality products | excellent service | responsible company

IPL group designs, manufactures and provides an extensive range of infrastructural products and services. High-quality innovative products, creative engineered solutions, excellent customer service and socially responsible business practices define this leading Irish company since its establishment in 1975.

As a company we are committed to the principles of sustainable development throughout all IPL group operations and conduct our business with honesty and integrity at all times. Through the implementation of our core policies, IPL group personnel, customers and partners have the assurance that we meet and exceed legal compliance and deliver best practice. The company maintains and operates an integrated Quality, Safety and Environmental management system that is internationally accredited to ISO 9001, ISO 45001 and ISO 14001.

Since 1975, IPL group has been at the forefront of quality infrastructure design, working with our customers on their specific requirements and providing integrated solutions. Whether we are creating intelligent post foundation systems, solving water network control issues or providing industrial process instrumentation, calibration and technical services, we bring over 40 years' experience that you can rely on.

Today, IPL group uniquely combines global expertise and local understanding. We aim to build on our past strengths and further develop our professional scope and technical ability; to continually exceed customer expectations and always supply the very best infrastructure solutions, services and quality products. At all times we welcome the opportunity to discuss your project requirements and our dedicated team of experienced personnel look forward to working with you.
