IPL group | Water Networks & Pipeline Products

IPL group provides a competitive source for high-quality water networks and pipeline products for the supply and management of water and wastewater services. Our trusted experience, team of skilled personnel and world-class products have made us Ireland's leading single-source for water network solutions.

In Ireland, IPL group has long-established relationships with local authorities, group water schemes, contractors and utility companies. Our expertise, quality products and fully audited supply chain ensures strict adherence to specification standards and gives water providers the necessary transparency to trace products from factory to final use. Working closely with our customers on their strategic goals, IPL group's products and services facilitate the provision, conservation, supply and asset management of valuable water resources.

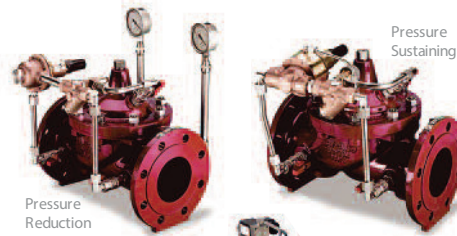

To ensure your continued success and sustainable infrastructure design, we make it our job to understand your operational processes, critical issues and future development plans in order to identify and implement integrated solutions of real value.

IPL group gets the best water management, distribution and control products working for you.

1975 - 2015
40 YEARS'
EXPERIENCE
YOU CAN RELY ON

Pressure Reduction

Pressure Sustaining

HYDRAULICALLY ACTUATED CONTROL VALVES
 CLA-VAL control valves for flow, pressure, level, electronic position and combination control. Proven record of durability and reliability. IPL group also provides comprehensive technical assistance, commissioning and service agreements.

Day/Night Controller

Power Generator

Direct Acting

Electronic Position Control

Level Control

Electronic Pressure Control

Insertion Meter

Strainer

Electronic Pilot Control

DATA LOGGING

Flow, Pressure & Level GPRS Data loggers and pressure control solutions for clean & wastewater distribution networks. Watercore web-based automated collection of remote data with data analysis and management tools.

Cello XO

Cello

Ecowat

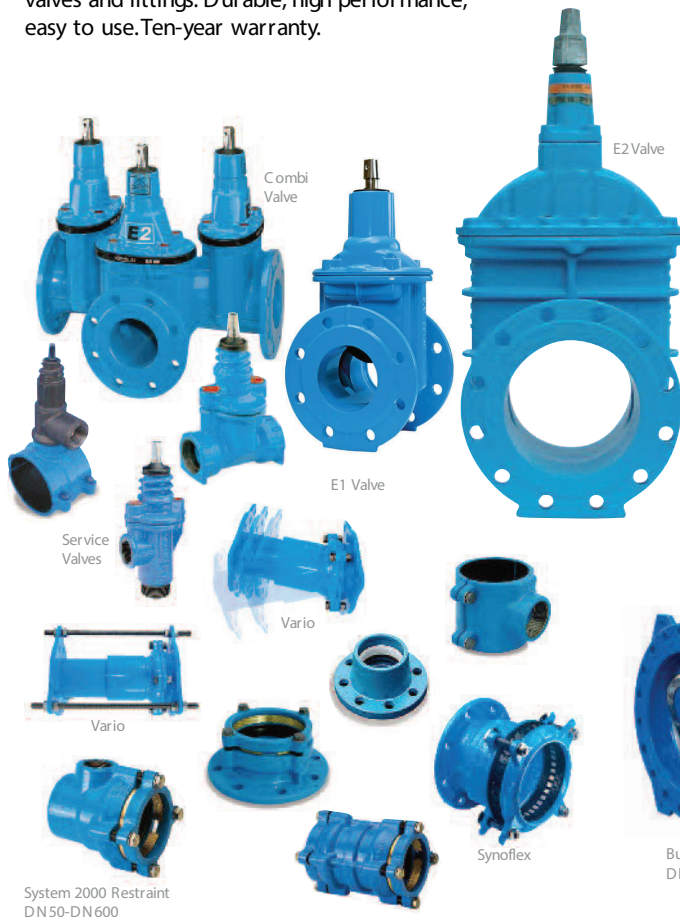

VALVES & FITTINGS

Extensive range of HAWLE premium quality valves and fittings. Durable, high performance, easy to use. Ten-year warranty.

AIR VALVES

Single, double, triple orifice.

E2 Valve

Combi Valve

E1 Valve

Service Valves

Vario

Vario

Synoflex

Butterfly Valve DN 150-DN 2000

System 2000 Restraint DN 50-DN 600

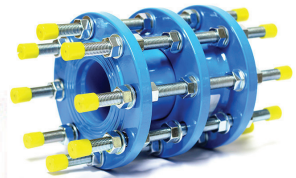

Valve Actuator

BS 750 HYDRANTS

Silent Check Valve DN 100-DN 1000

Dismantling Joint DN 100-DN 2500

Knife Gate DN 50-DN 400

SERVICE CONNECTIONS

Self Tapping Saddles

Lead Pack Coupling

Gunmetal Underground Stopcock

+GF+ RESTRAINT COUPLINGS & ADAPTORS

The GF multi-joint ultra-wide range of flexible and full restraint couplings & flange adaptors, straight & stepped.

BRENT

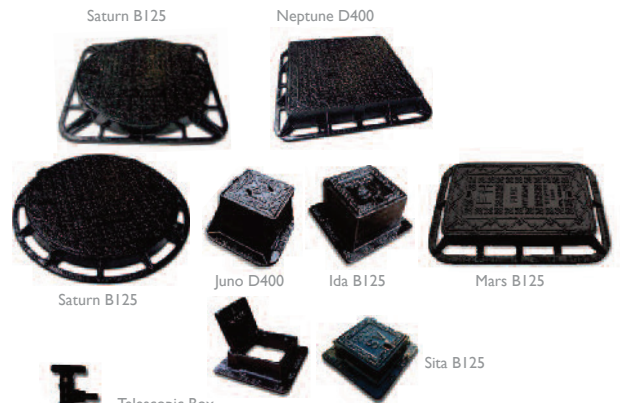

FLANGED PIPE FITTINGS

BRENT range of quality epoxy powder-coated pipe fittings, couplings and flange adaptors.

ACCESS COVERS & GRATINGS
ORBITAL access covers and gratings. Designed, tested and certified to EN124 standard.

MODULAR CHAMBERS

Modular chamber sections manufactured from recycled plastics to suit standard valve covers, frames and boxes. Stackable, lightweight and easy to use with full EU approval for traffic loading.

control KIOSKS & CABINETS

CONTROL kiosks, pillars and roadside cabinets.

H2O METER BOXES
 IPL group WSC-R water service control units and meter/stopcock boxes. Inspection and pressure testing kits.

WATER METERING
 Range of water meters and metering solutions for domestic and commercial use.

PRE-ASSEMBLED MODULAR CHAMBERS

Manufactured by IPL group and supplied ready to install. **CONTROL** chambers built in various sizes to suit customer requirements for flow, level and pressure control.

PUSH-FIT FITTINGS

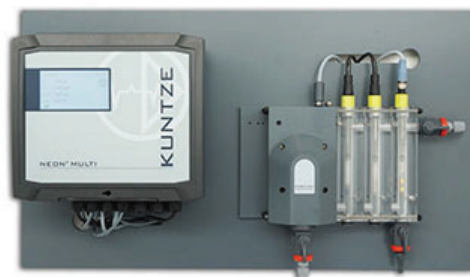

STP compression fittings and valves for plastic pipe systems. Simple assembly, suitable for high and low density PE pipe, metric, imperial and universal.

REPAIR CLAMPS
 Tracon range of stainless steel repair clamps for fast, easy and economic repair of pipes.

ELECTROFUSION FITTINGS

Quality range of electrofusion fittings designed for reliable, high-performance and durable pipe joining.

Chlorine Analyser

ANALYSERS

Kuntze krypton chlorine analyser suitable for dosing control and features low maintenance cost with outstanding measurement performance, PH compensation and temperature measurement.

Zickon PH

SIEMENS

FLOW, LEVEL, PRESSURE & TEMPERATURE CONTROL

IPL group and Siemens offer a complete range of advanced instrumentation, automation and control technologies to optimise network productivity, efficiency and control. IPL group also provides comprehensive technical assistance, commissioning and service agreements.

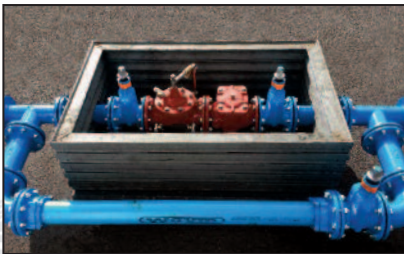

ASSET MANAGEMENT & MAINS REHABILITATION

IPL group provides high-quality pipeline products with proven long-life reliability and performance essential for asset management, mains rehabilitation and critical water network operation. Our supply chain transparency and extended manufacturer warranties give customers product quality assurance and vital stage auditing from factory production to integrated network performance. We offer “Active” products and leading European brands, such as Hawle low-torque-operating sluice valves, butterfly valves, air valves & fire hydrants, plus an extensive range of competitively priced “Passive” products: restraint pipe couplings & flange adaptors, epoxy-coated flanged pipe fittings and pipeline repair products.

INTELLIGENT NETWORK MANAGEMENT, WATER CONSERVATION, FLOW & PRESSURE CONTROL

IPL group, together with strategic partners Siemens, Technog and Cla-Val, have developed an advanced range of technical products and control solutions for real-time measurement and monitoring, effective data collection and intelligent network management. These include dynamic pressure, flow and level control, continuous information on quality, supply-and-demand and critical network information necessary for strategic forecasting and investment planning. We work closely with our customers on both their strategic goals and investment protection, but also on day-to-day network performance, emergency response ability and operational aims, such as reduced burst frequency, water conservation, identification of unaccounted network losses and leakage.

WASTEWATER INDUSTRY

IPL group offers a comprehensive range of instrumentation for the wastewater industry sector. Precise and reliable information on flow, pressure and level measurement delivers real value in terms of sewerage plant performance and safety and environmental protection, and is also critical for asset management and process efficiency. The equipment on offer includes Siemens electromagnetic flow meters, Sigris & Kuntze liquid analytics equipment, Milltronics ultrasonic level instruments, Siemens pressure transmitters and Technog telemetry equipment. IPL group also offers a range of high-quality mechanical valves & fittings suitable for the challenging environment of wastewater treatment plants.

BESPOKE SOLUTIONS / TECHNICAL ASSISTANCE & SUPPORT

At IPL group we work to understand our customers’ needs, to set new standards and to offer sustainable infrastructure design. From our 40 years in business in the Irish water industry, we have gained a reputation for innovative products and effective bespoke solutions. With our network of international partners, we advise on the latest advancements and developments in the industry and can custom-design solutions that meet global best practice. These solutions include water filtration (Hawle Optifil), flow and pressure management (Cla-Val CPC position control), liquid analytics (Kuntze & Sigris) and monitoring & control (Datataker & Technog). We welcome the opportunity to discuss your specific project requirements. Our dedicated team of experienced personnel will ensure that you receive an informed and courteous service.

IPL group

quality products | excellent service | responsible company

IPL group designs, manufactures and provides an extensive range of infrastructural products and services. High-quality innovative products, creative engineered solutions, excellent customer service and socially responsible business practices define this leading Irish company since its establishment in 1975.

As a company we are committed to the principles of sustainable development throughout all IPL group operations and conduct our business with honesty and integrity at all times. Through the implementation of our core policies, IPL group personnel, customers and partners have the assurance that we meet and exceed legal compliance and deliver best practice. The company maintains and operates an integrated Quality, Safety and Environmental management system that is internationally accredited to ISO 9001, OHSAS 18001 and ISO 14001.

Since 1975, IPL group has been at the forefront of quality infrastructure design, working with our customers on their specific requirements and providing integrated solutions. Whether we are creating intelligent post foundation systems, solving water network control issues or providing industrial process instrumentation, calibration and technical services, we bring 40 years' experience that you can rely on.

Today, IPL group uniquely combines global expertise and local understanding. We aim to build on our past strengths and further develop our professional scope and technical ability; to continually exceed customer expectations and always supply the very best infrastructure solutions, services and quality products. At all times we welcome the opportunity to discuss your project requirements and our dedicated team of experienced personnel look forward to working with you.
