

Case Study

RS115 | Ceredigion

Project: Traffic Signals, Ceredigion, Wales
Product: RS115df sockets

RS115 | Ceredigion...

In the Welsh county of Ceredigion, IPL group's RETENTION SYSTEM™ sockets were used for the installation of passively safe traffic signal poles. Ceredigion County Council's improvement objectives include the provision of a high quality and safe environment. As part of their improvement of road safety conditions, they installed Sapa traffic signal poles which carry an EN12767 passive safe classification, (100NE2 & NE3 / 70NE2 & NE3 ratings available). These EN12899 certified aluminium poles have a Ø114mm root suitable for installation in RS115 sockets and easy replacement/renovation of existing traffic signals.

passive safety...

IPL group is a leading manufacturer and supplier of passively safe roadside equipment.

As a signatory of the ERSC (European Road Safety Charter) we are committed to the development of infrastructure designed to minimise the risks of accidents and their severity.
