

# Case Study

## RS115 | Mayor Street

**Project:** Traffic Signal Posts, Mayor Street, Dublin, Ireland  
**Product:** RS115df sockets / RS drop kerb wedges

### RS115 | Mayor Street...

A range of RS sockets were used in the Dublin docklands development of Mayor Street including RS115 sockets for the installation of traffic signals featuring polished stainless steel posts set in high-quality granite cobble paving. In addition, RS drop kerb wedges were utilised in conjunction with the RS115 sockets at many of the gradient locations to ensure vertical post installation and a flush ground level finish.

Further information on the RETENTION SYSTEM sockets for post installation is available at [www.retention-system.com](http://www.retention-system.com). Measurements and weights are approximate.
