

# Case Study

## RS115 | Portadown

**Project:** Traffic Signals, Portadown, Armagh, N. Ireland  
**Product:** RS115df sockets

### RS115 | Portadown...

Junctions and pedestrian crossings around the busy shopping district and historic town centre in Portadown use RS115 sockets for the installation and maintenance of traffic signals. IPL group's RETENTION SYSTEM™ delivers practical, efficient and sustainable infrastructure design. RS socket foundations bring improved road network management and low-cost maintenance where damaged posts are quickly replaced without excavation ensuring minimum traffic disruption.

Further information on the RETENTION SYSTEM sockets for post installation is available at [www.retention-system.com](http://www.retention-system.com). Measurements and weights are approximate. The designs are the property of Innovative Products Ltd (IPL group) and may not be reproduced without express permission. Innovative Products reserve the right to amend specifications or to withdraw models without prior notice. © June 2015.
