

# Case Study

## RS76 | Guinness Storehouse

**Project:** Bollards, Guinness Storehouse, Dublin, Ireland

**Product:** RS76 sockets

### RS76 | Guinness Storehouse...

RS76 sockets are used to install bollards, bus stops and other street furniture around the Guinness Storehouse in Dublin, Ireland. Since its opening in 2000 it has received over four million visitors and remains one of Dublin's top tourist attractions. IPL group have a long association with Guinness delivering sustainable infrastructure solutions and quality products to the Saint James Gate Brewery. IPL group's Boyne bollards with the Guinness Harp Crest are used throughout the complex and RETENTION SYSTEM™ socket foundations ensure all street furniture can be easily maintained and replaced without disruptive ground works and excavations.

Further information on the RETENTION SYSTEM sockets for post installation is available at [www.retention-system.com](http://www.retention-system.com). Measurements and weights are approximate. The designs are the property of Innovative Products Ltd (IPL group) and may not be reproduced without express permission. Innovative Products reserve the right to amend specifications or to withdraw models without prior notice. © May 2010.
