

Case Study

RS76 | Wrocław

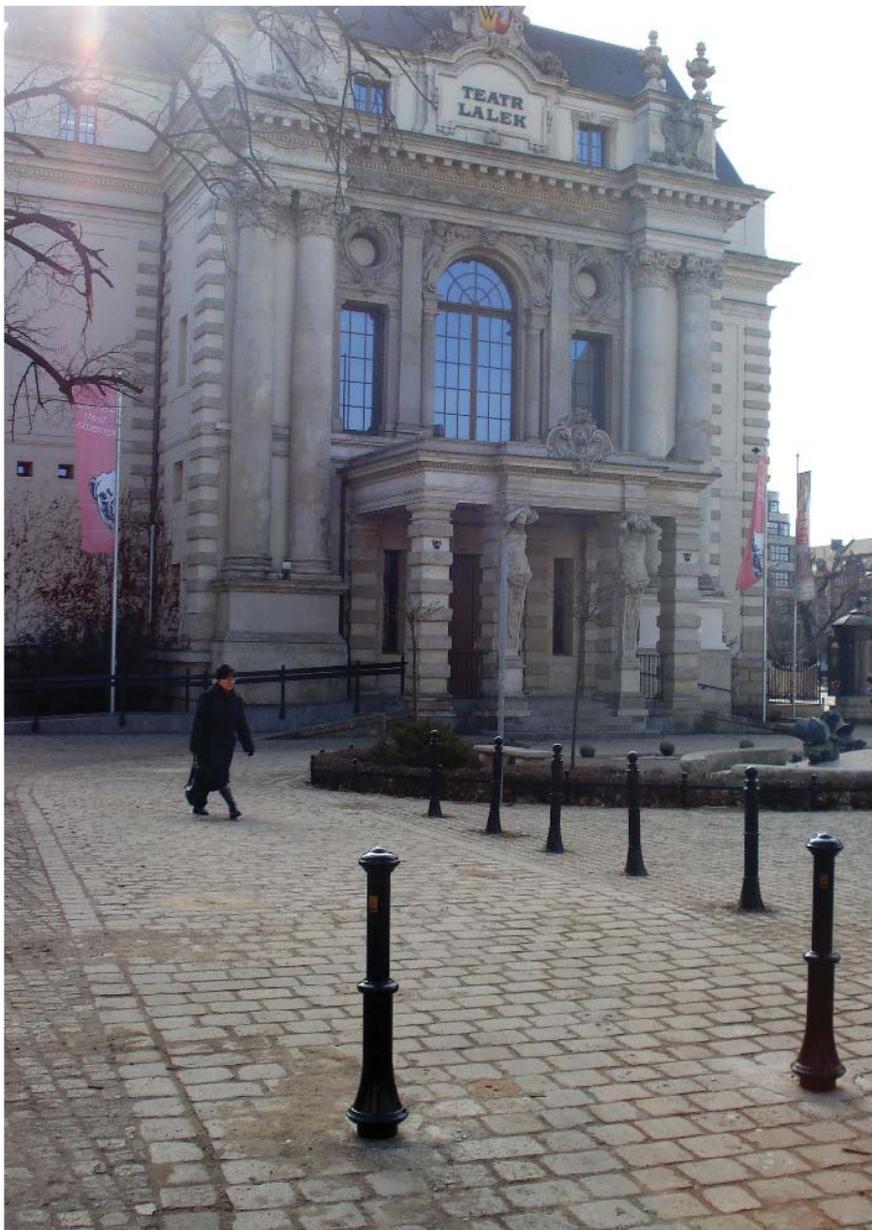

Project: Bollards, Wrocław, Dolnośląskie, Poland

Product: RS76 sockets

RS76 | Wrocław...

RS76 sockets were used with Ø76mm core traditional style bollards at the entrance to the Wrocław Puppet Theatre. Both the bollards and sockets were designed and supplied by IPL group for pedestrian safety and vehicle access control. Frequently throughout the year, authorised removal of the bollards for delivery and emergency vehicles takes place without the need for further excavation or ground works.

Further information on the RETENTION SYSTEM sockets for post installation is available at www.retention-system.com. Measurements and weights are approximate. The designs are the property of Innovative Products Ltd (IPL group) and may not be reproduced without express permission. Innovative Products reserve the right to amend specifications or to withdraw models without prior notice. © April 2010.
