

Case Study

RSe200 | M1 Services Lusk

Project: Lighting Columns, M1 Motorway Services Area, Lusk, Ireland
Product: RSe200 sockets

RSe200 | M1 Services Lusk...

IPL group offers a range of passive safe products that have been designed to exceed legislative crash protection standards and bring about real safety improvements in a 'forgiving roadside' environment. RSe200 sockets were used in the installation of passively safe lighting columns at the Castlebellingham and Lusk M1 Motorway Services Areas. The 10 metre high aluminium lighting columns were installed in RSe200 sockets without the need for additional safety barriers in accordance with European Standard EN12767:2007.

Further information on the RETENTION SYSTEM sockets for post installation is available at www.retention-system.com
