

Case Study

RS115 | Bolton

Project: Pedestrian Crossings, Bolton, Greater Manchester, England
Product: RS115df sockets

RS115 | Bolton...

Road furniture installed along Turton street and Folds road in Bolton show the comprehensive use of RS sockets from the RETENTION SYSTEM range. Bolton Metropolitan Borough Council like other local authorities install essential infrastructure in RS sockets to achieve consistent high-quality street finishes that are easily maintained. Along Turton street, RS140 sockets were used for the installation of wide based illuminated signposts, RS115 sockets for traffic signal and pedestrian push-button poles, RS76 and RS50x60 sockets for pedestrian guard rail and RS50x50 sockets for flexible bollards.

Further information on the RETENTION SYSTEM sockets for post installation is available at www.retention-system.com. Measurements and weights are approximate.
