

Case Study

RS76 | Loughborough

Project: Loughborough, Leicestershire, England
Product: RS76 sockets

RS76 | Loughborough...

IPL group's versatile and robust RS socket foundations not only simplify installation practices but assist asset owners and operators on location management and maintenance requirements. Charnwood Borough Council utilised IPL group's RETENTION SYSTEM™ sockets for the installation of street furniture, cycle hoops, benches, litter bins and signage in Loughborough town centre. The town is home to the very popular and award-winning Loughborough market. As required, street furniture in Market Place can be easily removed and replaced to facilitate event management, trader stall setup and cleanup, crowd control and public safety. RS115 and RS76 sockets with adaptors accommodate a range of post sizes and when not in use, the RS socket foundations can be capped flush to the ground and trip hazard free.

Further information on the RETENTION SYSTEM sockets for post installation is available at www.retention-system.com
