

Case Study

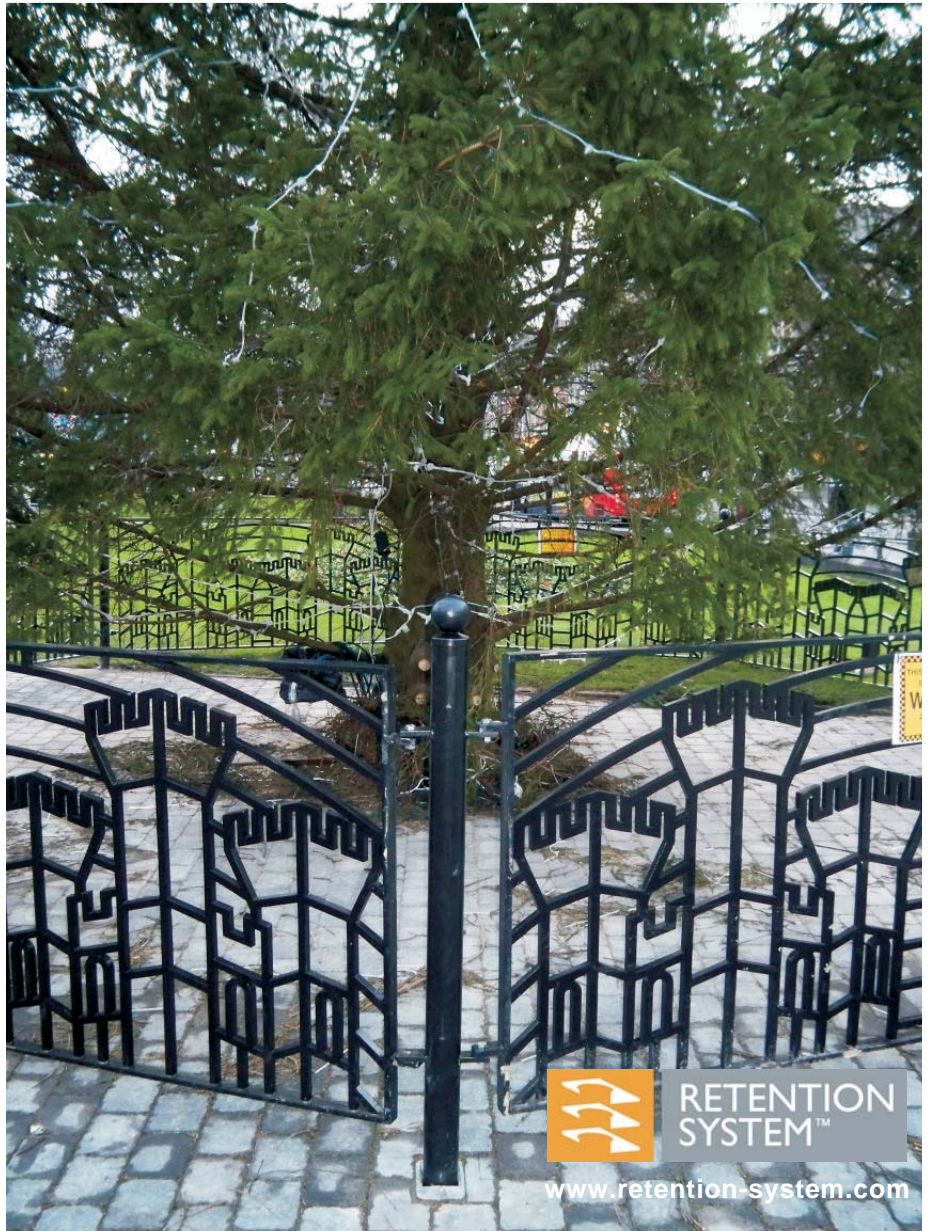

RS76 | Newcastle

Project: Seasonal Street Furniture, Newcastle-upon-Tyne, Tyne and Wear, England
Product: RS76 sockets

RS76 | Newcastle...

Newcastle City Council utilise RS sockets as part of their Festive Season projects and use RS76 sockets for the installation of temporary perimeter railings around Christmas trees. These sockets remain in position throughout the year and are finished flush with the ground. When not in use all RS sockets can be securely plugged to ensure pedestrian safety. Other seasonal street furniture, including Christmas trees, marquees and posts for street lights can also be installed safely and easily in a range of RS sockets.

Further information on the RETENTION SYSTEM sockets for post installation is available at www.retention-system.com. Measurements and weights are approximate. The designs are the property of Innovative Products Ltd (IPL group) and may not be reproduced without express permission. Innovative Products reserve the right to amend specifications or to withdraw models without prior notice. © November 2010.
