

## Case Study

# RS mobile plinth | Amiens Street

**Project:** Traffic Management, Luas Red Line, Amiens Street, Dublin, Ireland

**Product:** RS mobile plinths

## RS mobile plinth | Amiens Street...

RS mobile plinths were used for installing temporary traffic signals at the critical Amiens Street junction and surrounding area in Dublin City during the Luas Docklands - Red Line extension. All RS mobile plinths had cast-in RS115 sockets, lifting hooks for easy on-site mobility and provided safe concealment of electrical cables. On completion, the RS mobile plinths were removed, stacked and stored off-site for future temporary post installations.

Further information on the RETENTION SYSTEM sockets for post installation is available at [www.retention-system.com](http://www.retention-system.com). Measurements and weights are approximate.
